Wagholi, Pune

PROFILE

Motivated third-year B.Sc. Computer Science student with a strong foundation in Python, SQL, Data Structures, and Artificial Intelligence fundamentals. Passionate about developing intelligent systems, analyzing data, and solving real-world problems using Machine Learning and AI. Eager to contribute to AI/ML projects while continuously expanding my knowledge of modern AI technologies, deep learning, and data-driven software development.

EDUCATION

Bachelor of Computer Science

[G H Rasoni College Arts, Commerce and Science], [Pune]
2024 - 2027

Higher Secondary Certificate

[Sant Gajanan Maharaj Junior College], [Kankarwadi]
2022 - 2024

SKILLS

Python

SQL

HTML, CSS, JavaScript

Data Structures & Algorithms

Object-Oriented Programming (OOP)

Database Management (MySQL/SQLite)

INTERESTS

- Artificial Intelligence
- Machine Learning
- Data Science
- Natural Language Processing (NLP)
- Computer Vision
- AI Research

ACADEMIC PROJECT

➤ StudyGenie AI — AI-Powered Study Companion

- Developed a full-stack web application designed to provide students with a centralized platform for managing and organizing their academic activities, notes, study materials, and revision.
- Built an interactive Notes Management System using Node.js, Express.js, and MongoDB, allowing users to create, view, edit, and delete notes with persistent database storage.
- Developed a PDF Library for uploading and managing study documents, providing students with an organized space to access their academic resources.
- Implemented productivity features including To-Do List, Flashcards, Study Progress, Daily Streaks, and Quick Actions to support regular study and revision.
- Integrated the project architecture for AI-powered study assistance, including intelligent summarization of study material and AI-based learning tools.
- Planned the system with a modular architecture so additional features such as AI question generation, personalized study recommendations, automated quiz generation, and advanced learning analytics can be added in the future.
- Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Mongoose, REST APIs, Git, GitHub, AI API
